moveLED Mk II

HELIOS moveLED Mk II **135"**

Foldable, high-resolution LED display with lifter and intelligent transport solution

SPECIFICATIONS	HELIOS moveLED Mk II
Net image width	300 cm
Net image height	168.75 cm
Screen diagonal	135.5"
Resolution	1,920 x 1,080 pixels
Pixel Pitch	1.5 mm
Signal input	4x HDMI, Wireless Transmitter
Brightness	100-600 cd/m ² adjustable in 8 levels
Power consumption max.	3,000 W
Bottom edge of picture max / min	80 cm / 15 cm
Top edge of picture max.	255 cm
Transport dimensions /w Case (WxHxD)	205cm x 190cm x 80cm
Transport dimensions /wo Case (WxHxD)	195cm x 180cm x 78cm
Shipping weight	approx. 470 kg
Weight display, suspended	approx. 190 kg
Weight Display & Lifter	approx. 290 kg
Certificates	CE, RoHS, WEEE

The HELIOS moveLED system is designed to **simplify and speed up** the use of high-resolution LED walls.

The visually appealing design of the visible parts allow **out-of-the-box use** in the audience area. With the use of this system, a LED wall can be **commissioned within a very short time**.

The **foldable side panels** allow for a small packing size of only (WxHxL) 190 cm x 205 cm x 80 cm. Without a flight case, the system fits through standard doors and can therefore be **used flexibly** both in-house and at different venues.

Mounting points for **external loudspeaker** systems are already provided at the factory.

In addition, the LED system can be used - without lifter - in **suspended installation**.

Errors, technical or other changes and availability of the products are subject to change without notice.
